COVERING ALL OF LONG ISLAND, NEW YORK CITY AND UPSTATE NEW YORK

**HIRED BY BIRTH OF A NEW WORLD MONUMENT LLC**

## Mast Construction Services oversees completion of September 11 monument

**BAYONNE, NJ** A 100-ft tall monument and public memo-

**Ted Domuracki**

rial that serves as a tribute to the victims of the September 11, 2001 tragedy and as a poignant reminder of the ongoing struggle against world terrorism, was dedicated on September 11 2006.

MAST Construction Services, Inc., hired by Birth of a New World Monument LLC, oversaw construction of the monument located in newly created Harbor View Park in Bayonne, New Jersey. The monument was a gift from world-renowned artist Zurab Tseretelli and the people of Russia.

Erected at the tip of the former Military Ocean Terminal and on a direct axis line with the World Trade Center site in New

York City, MAST oversaw the completion of the foundation and infrastructure necessary to erect the 165-ton bronze clad monument that supports the 4-ton chrome covered "tear of grief." The names of the victims of the September 11<sup>th</sup> terrorist attacks are inscribed along

the black granite panels that envelop the base of the monument. The Monument to the Struggle Against World Terrorism is illuminated at night making it visible for miles around.

According to MAST president Ted Domuracki, "The

monument is the centerpiece of this brand new park, situated at the tip of the Harbor View Peninsula. It can be seen, both day and night, by the many people entering New York Harbor. It serves as a tangible tribute to the effort to end world terrorism, and we are honored to be part of the project team for this remarkable memorial."

MAST project executive Lee Karlin and project manager Troy Marzziotti oversaw the construction and erection of the monument, working alongside noted engineer Dresdner Robin.

MAST Construction Services, Inc. is a full-service, New Jersey based owner's representative, project/construction manager and distressed projects consulting firm serving clients throughout the tri-state region. The company provides construction services to clients in the public and private sectors, specializing in educational, institutional, governmental, health care, commercial and residential projects.
